INTERESTING FOREIGN INTEL.

LIGENCE. THE DOLLINGER MOVEMENT IN GERMANY.

THE CENIS TUNNEL OPEN.

THE BOSTON RAILROAD HOR-ROR.

New-York, August 28.—Additional foreign intelligence concerning the Dollinger movement, in Germany, reports
that at a meeting of liberal Cathelies at
Heidelburg, on August 5th and 6th, which
was attended by forty delegates representing the countries of Bavaris, Prussis, Austria, and Switzerland, it was resolved that
the coming congress of anti-infalibilists
at Munich, September 22, should have
public discussions of the church question;
that a new declaration be issued, and that
the Catholics of every nation be asked to
attach themselves to the movement.
The Dollinger Catholies, though placing
little reliance in the action of the government, feel sanguine of the support of NEW-YORK, August 28 .- Additional for-

ment, feel sanguine of the support of Prussia by which it is expected in it, ac-

tive war steps will be taken.

There is nothing expected from Bavaria, although the action of the government of that country in refusing to sustain the ecclesiastical sentence in the case of a pastor, who, though excommunicated, continued to exercise his functions, is regarded as a hopeful sign that the government will sooner or later have decided upon the demand which is proposed to be made on the anti-infallibilists. There is great anxiety manifeited by the liberals as to whether the Papal Anathams will be vested with the responsibility at Munich, over which Dolliger has now full charge.

Maild advices from Germany state that the Catholic casino at Munich has ex-

pelled a number of its members who have voted for school regulations in abolishing the right of interference by priests of

Foreign papers state that on August 14th, a train went through Cenis' tunnel with perfect success. The opening of the tunnel will take place the 17th of Septem-

CHOLERA. Mail advices from Europe state that, ac-cording to the official register, the deaths from cholers for the week ending August 11, at Konigsburg, amounted to forty-five, afteen being children under eleven years

of age.

The persons attacked by the cholera belong almost exclusively to the low order of society.

Difference by the City Council of the City of Cairo—
Section 1. That it shall not be lawful for any goat to run at large, within the limits of the said City of Cairo; and any person being the owner of any goat, or having charge or control of the same, as agent or otherwise, who shall permit such goat to run at large, in any atreet, arenue, or public ground of said city, shall forfeit and pay to said city a sum not less than five deliars, nor more than twenty five deliars, for ean and every offence.

Sec. 2. All the provisions of an ordinance, entitled "An Ordinance to restrain hogs from running at large within the limits of the City," and numbered 11s, be and the same are hereby reenacted and made a part of this ordinance.

Sec. 3. It shall not be lawful for any cow, gost, horse, mule, oz, buil, sheep, or swine, to wear a bell within the limits of said city; and any person being the owner of any of said animals, or having charge of the same as agent or otherwise, who shall permit them or any of them, to wear a bell within the limits of said city, shall forfeit and pay to said city as sum not less than five dellars, nor more than twonty-five dellars, for each and every oftence; and, in addition, ten dellars for each and every day such animal shall continue to wear such beil after the first conviction for such offence under this ordinance. Provided, however, that the wearing of any bell by any horse or mule, when in harness and stached to any vehicle, shall not be considered a violation of this ordinance.

August 19th, 1871. All the journals are discussing the Boston railroad accident, and are unanimous in the opinion that the case demands such investigation as will result in fixing the responsibility, and visiting the guilty with the severest penalties of the law. The World says of the accident: "If this be not murder-murder most foul, most unnatural to God and man, for justice, then it were as well to strike out at one from all legislation useless statutes which pretend to hedge with pity and with power the lives of the innocent."

THE LATE HORRIBLE RAIL ROAD ACCIDENT.

Boston, August 27 .- The terrible railroad accident, which occurred on Saturday night, becomes more sickening as details are developed. The cause of the accident was simply

The cause of the accident was simply that the engineer on the express train chose to plunge his train in one standing on the track before him. The Beverly accommodation train made several stops to get passengers at the way stations. Meanwhile, the express train from Bangor left on time at the highest attainable rate of speed. Before it started, Superintendent Prescott sent special orders to the engin-ser to be careful as there was a train aboad of him. The conductor of the accomedation was warned of the train behind him and he caused two red lanterns to be put on the rear platform of the last car, but it seems that no attention was paid to orders. The responsibility of this carelessness must rest somewhere. At the scene of this awful disaster there is little to be seen. In a ditch at the side of that still smoke

embers of burned cars, but this is almost a llwhich tells of the disaster. In town hall Revere still lie half a dozen In town hall Revere still lie half a dozen bodies; they are horrible to look at; bloody foam lies upon their black, swollen lips, their eyes protrude from their sockets, discolored patches of flesh hang loose from their cheeks, and great flaps of boiled skin dangle from their hands. They have been crushed, cooked, tortured, and despor than more physical disfigurement. deeper than mere physical disfigurement, one sees something still more horrible in their faces; a haunting look of unspeaka-ble agony. The officers of the road were almost crazed by the accident; and seemed not to know what to do. The killed and wounded were nearly all Boston, Salem
